

## Scapa Hardmount

High performance filmic plate mounting tapes for the printing and graphics industry

# Product list

Scapa's Hardmount range is a range of double-sided filmic tapes uniquely engineered to meet the stringent demands of the flexographic industry.

Scapa plate mounting tapes are designed by printing technology specialists operating from a single centre of excellence, dedicated to providing solutions for high-speed flexography, lithography, general printing and reprographics.

Hardmount products bring optimum results on all print jobs. Unrivalled attention to detail and outstanding quality are the hallmarks of Scapa. A range of tapes with different levels of adhesion and thicknesses are available.

Our specialist sales and technical personnel are always on hand to give recommendations on the most appropriate product for your specific application.

### Benefits of the Hardmount range:

- Easy mounting, repositioning and de-mounting enables an efficient and fast print process
- Precise adhesion level prevents distortion of the print plate
- Stability of plates during print runs avoids costly down-time
- Residue-free removal eliminates cylinder cleaning between runs
- Easy handling Polypropylene (PP) soft liners allow right first-time application and easy air bubbles release
- Quick removability in one piece saves time and money
- Excellent adhesion and shear resistance produces premium print quality
- Hardmount products display easy lamination

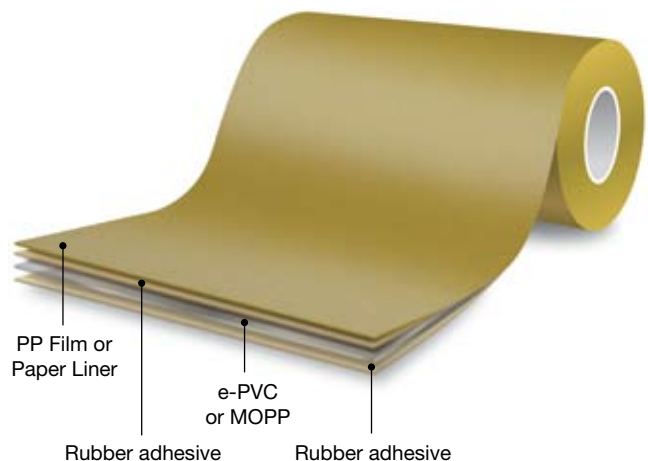

Scapa tapes can also be tailored to meet individual customer needs. Contact Scapa to find your perfect solution.

Product	Thickness without liner (µm)	Carrier/adhesive	Peel adhesion N/25mm*
<b>Polypropylene (PP) corrugated filmic liner</b>			
43010	100	Clear e-PVC/Rubber	13
43015	150	Clear e-PVC/Rubber	13
43018	200	White MOPP/Rubber	15
43023	200	Clear MOPP/Rubber	13
43025	250	White MOPP/Rubber	12
43030	300	Clear MOPP/Rubber	11

<b>Smooth paper liner</b>			
4311	100	Clear e-PVC/Rubber	13
4316	150	Clear e-PVC/Rubber	13
4317	200	White MOPP/Rubber	15
4324	200	Clear MOPP/Rubber	13
4326	250	White MOPP/Rubber	12
4331	300	Clear MOPP/Rubber	11

\* Peel adhesion is measured at 180° to the surface on stainless steel
